Project Description

For this project, Sustainable Group provided Underground Storage Tank (UST) expertise to Sierra Pacific Industries and DS Ventures Inc. to ensure the proper removal and disposal of a 2,000 gallon gasoline underground storage tank at the now decommissioned Camino Sawmill.

Specifically, Sustainable Group oversaw the proper cleaning and removal of all remaining product from the tank; the triple rinsing of the tank; the inerting of the tank with "dry ice" to keep oxygen levels below 10% within the atmosphere of the tank; the actual tank extraction and finally, the final tank disposal.

Since the California Department of Toxic Substances Control considers excavated tanks which held hazardous material to be hazardous waste, Sustainable Group assisted the project team with identifying one of the few remaining facilities that will take excavated tanks for processing. This assistance ensured the tank was indeed disposed of properly.

Sustainable Group completed this project on budget and on an accelerated timeline without incident of any kind.

Rigging of the tank

Initial tank extraction

Key Personnel Certifications

PE, LEED AP, PMP, CFM, QSD/
QSP

Sustainable Group is a Service
Disabled Veteran Owned Small
Business Corporation.

Tank extraction

Tank ready for transport to disposal facility

About Sustainable Group

Headquartered in Moraga, California, Sustainable Group Inc. is a premier licensed General Contractor (CA #966993, HAZ) providing general construction environmental remediation, demolition, civil site development, and marine construction services. Sustainable Group also offers Leadership in Energy and Environmental Design (LEED) expertise pertaining to renewable energy and sustainable sites, as well as overall facilities management consulting services. Sustainable Group key personnel have over 22 years of experience in successfully executing projects and performing expert facilities management for multiple Federal entities including the Department of Homeland Security, Department of Energy, Department of Defense, Department of Transportation, and the Army Corps of Engineers.

Let's Discuss Your Needs

Sustainable Group will become a highly valued and trusted resource that you'll rely upon to consistently provide expert, efficient and professional construction, remediation, demolition, LEED, and facility management consulting services. Contact us at your convenience; we look forward to discussing your needs.
