Project Description

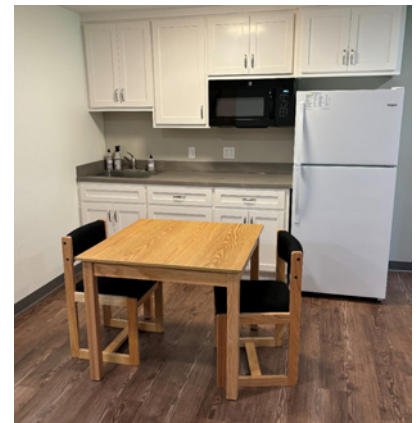

Located in the bucolic farmlands just west of Petaluma, Training Center Petaluma is the Coast Guard's largest West Coast Training Center. Coast Guard personnel complete career training there that allows them to become chefs, medics, storekeepers, yeoman, information systems technicians, electronics technicians, and operations specialists.

This Design- Build project completely remodeled and upgraded underused spaces and outdated gang style restrooms in a former Army 1960's era barracks building. Specific elements of work included the abatement of asbestos flooring, demolition of multiple partition walls, design and installation of a structural steel framing system, concrete trenching for new sanitary sewer lines, framing and finishing of four new restrooms to include two new ADA compliant restrooms (one with a roll in shower), construction of new laundry facilities, framing and finishing of six two bedroom suites complete with a living area and kitchenette, new hydronic heating for all spaces, replacement of 70 exterior windows, installation of both laminate and carpet flooring, custom tile work throughout and additional custom items to include chromatic door glass in each berthing room, custom decals for the entry doors and hotel style locksets.

Sustainable Group key personnel performed overall project management, on-site construction management, field superintendence, safety oversight, and Quality

Existing Berthing/Lounge Areas

Remodeled Lounge Area

Key Personnel Certifications
